5	SP 2: Determine that a Director is Independent or Non-Independent Be Disclosed in Management Circular	SH	Against	Against	Against

It appears that the company is in compliance with current disclosure obligations and the shareholder request is outside current Canadian market practice. 6	SP 3: Adopt a Responsible Employment Policy While Ensuring Its Employees a Living Wage	SH	Against	Against	Against
<i>Blended Rationale: A vote AGAINST the resolution is warranted at this time. The company has committed to aligning with UN SDG 8: Decent work and economic growth. Related disclosures show the company's policies and objectives concerning major employment related policies and practices. It appears that none of the company's competitors has adopted living wage. Requiring the company to possibly commit to increased labour costs in a highly competitive retail industry could reduce its ability to compete with peers.</i>

Blended Rationale: Vote FOR the ratification of KPMG LLP as auditor as non-audit fees (17 percent) were reasonable relative to total fees paid to the auditor.					
3	Advisory Vote on Executive Compensation Approach	Mgmt	For	For	For
Blended Rationale: Vote FOR this non-binding advisory vote. The initial quantitative pay-for-performance screen has identified a high concern due to the Relative Degree of Alignment (RDA) factor. As indicated by the qualitative analysis, the company has outperformed its GICs peer group median on a one-year basis from a TSR perspective. Operational performance appears to be improving compared to the company selected peers while relative compensation has decreased versus company selected peers. The target achievement level for adjusted net earnings used to determine the CEO's annual bonus in 2020 was lower than the previous year's actual results. However, when considering the crisis related to the COVID-19 pandemic has disrupted the last seven months of the fiscal year 2020 and that the committee exercised its discretion in reducing the payout multiplier for its adjusted net earnings component STI program from 200 percent to 162.5 percent; this concern is mitigated. Given the above factors and considering that 50 percent of the CEO's 2020 total LTIP compensation grant is performance-based, the initial high concern has been mitigated to medium. On balance, shareholder support is warranted.

Blended Rationale: Votes AGAINST this shareholder proposal is warranted as the prescriptive nature of the proposal, which mandates an increase in the presence of women on the board to 40 percent over a five-year period, establishes a quota that could hinder the company from nominating the most suitable individuals and seems unnecessary because the bank already is near this target, demonstrating a strong commitment to board gender diversity.

	<i>Blended Rationale: Vote FOR the ratification of KPMG LLP as auditor as non-audit fees (1 percent) were reasonable relative to total fees paid to the auditor.</i>				
3	Advisory Vote on Executive Compensation Approach	Mgmt	For	Against	Against
	<i>Blended Rationale: A vote AGAINST this non-binding advisory vote is warranted at this time. The quantitative pay-for-performance screen has identified a high concern driven by the bank's relative degree of pay-and-performance alignment (RDA), measured against a comparable group of companies. This comes after in last year's report, Sustainability Advisory Services identified a medium concern driven by RDA as well. As such, it appears the misalignment between company performance and CEO pay increased. While the CEO's total direct compensation decreased by 7 percent over the last fiscal year, a comparison of the bank's pay-for-performance against its banking peers shows a misalignment. The bank's one-, three-, and five-year TSR was the lowest among its banking peers, while the CEO's compensation was ranked near the top. An assessment of the bank's operational performance against its banking peers, as measured by operating leverage and ROE shows similar underperformance. Additionally, EPS, another key performance metric used in setting variable compensation, has been declining as well and went from \$6.90 in 2018, to \$6.72 in 2019, to \$5.43 in 2020. The bank's business performance factor used to establish the CEO's variable compensation is based on these same operational metrics and was only reduced by three factor points (from 91 to 88) based on relative performance. The bank's achievement of a business performance score of 91 prior to adjustment indicates that the bank appears to have set relatively low performance targets. Furthermore, the bank's fiscal 2020 targets were set below the actual results achieved in fiscal 2019. In addition, unlike prior years, the bank did not disclose target thresholds for STIP metrics. In light of the aforementioned, there appears to be a pay-for-performance disconnect at this time.</i>

4	Advisory Vote on Executive Compensation Approach	Mgmt	For	For	For
<i>Blended Rationale: Vote FOR this non-binding advisory vote. The initial quantitative pay-for-performance screen identified a high concern driven by MOM and RDA; however, the concern level has been reduced to medium based on the following factors: * Compared to the company self-selected peer group, the CEO total compensation multiple of the median (MOM) is 1.97 which is below the threshold of 2.50 based on which the medium concern is triggered under Sustainability Advisory Services quantitative screening. The 2020 CEO pay was 2.76 times the median when compared to Sustainability Advisory Services group, which resulted in a medium concern under MOM factor. * In addition, some of the company's operational performance metrics such as return on investment was at or above the median of its own peers over last two years, while the company's percent rank ranged between P40 to P73 with respect to EBITDA margin in the last three years. * In consideration of the CEO compensation structure, the total compensation increase in 2020 is mainly driven by equity grants which is 50% performance-contingent with disclosed targets. The annual bonus reduced by 18 percent as compared to 2019 with disclosure of the performance metrics. * The average difference in total direct compensation awarded to the CEO as compared to realized value over the last five years (at 27%) relates directly to average total shareholder return over that same period (at 26%).</i>

3	Advisory Vote on Executive Compensation Approach	Mgmt	For	For	For
Blended Rationale: Vote FOR this non-binding advisory vote. The quantitative pay-for-performance screen has identified a high concern which upon further quantitative and qualitative analysis of the company's compensation structure and practices has been reduced to medium for the following reasons: * Realized / realizable pay appears to track company performance; * Operational performance as measured by certain metrics, such as ROE, has shown an improving trend over the last five years on a standalone basis and vs peers; * 3- and 5-year TSR vs self-selected peers is near the peer median while CEO pay has also remained near the peer median; * Changes to the company LTIP program for 2021 appear designed to further align CEO pay with company performance.

Blended Rationale: A vote FOR is recommended at this time; however, some investors may be concerned with the increasing CEO pay. Notwithstanding the temporary reduction and discretion exercised by the board, the CEO base pay increased from \$400,000 in 2018 to \$500,000 in 2020, bringing a rippling effect on other pay components, as his target bonus was increased from 100% to 125% of base pay in 2020, and the scorecard was expanded from a 0 – 125% evaluation range to a range of 0 – 200%.

Blended Rationale: Based on evaluation of the estimated cost, plan features, grant practices, and overriding negative factors using the Equity Plan Score Card (EPSC), vote AGAINST this stock option plan due to the following key factor(s):* The plan provides for discretionary non-employee director participation;* The plan's detailed amendment provision does not sufficiently limit the board's ability to amend the plan without shareholder approval;* The plan's estimated cost is excessive;* The company's potential dilution from equity plans is excessive;* The plan contains a problematic change-in-control provision;* The CEO's compensation package does not include performance-based equity;* The company has not adopted a clawback provision applicable to equity awards.					
4	Re-approve Long Term Incentive Plan	Mgmt	For	Against	Against
Blended Rationale: Based on evaluation of the estimated cost, plan features, grant practices, and overriding negative factors using the Equity Plan Score Card (EPSC), vote AGAINST this full-value award plan due to the following key factor(s):* The plan provides for discretionary non-employee director participation;* The plan's estimated cost is excessive;* The company's potential dilution from equity plans is excessive;* The plan contains a problematic change-in-control provision;* The CEO's compensation package does not include performance-based equity;* The company has not adopted a clawback provision applicable to equity awards.					
5	Advisory Vote on Executive Compensation Approach	Mgmt	For	For	For
Blended Rationale: While a vote FOR this non-binding advisory vote is warranted, various problematic pay practices have been evidenced including a stock option grant of US\$15M to the CEO, lack of certain risk mitigating practices, and a single trigger CIC agreement. As a result, the problematic pay practices concern level has been elevated to a Medium.

<i>Blended Rationale: The civil aviation industry is going through extremely difficult times amid the pandemic. The previous decision to pay out \$10 million in COVID-19 bonuses to executives and mid-level managers caused significant public backlash, including the country's highest-level politicians publicly expressing their displeasure. On June 6, the company announced the top executives would return these bonuses. After considering* the company actions announced after the public backlash;* the restrictions on executive pay attached to the government financial support package;* the rationale behind the pandemic-related changes made to the long-term performance-based awards appears reasonable;* no structural modifications are made to the long-term performance-based award program and it remains a significant pay component; any post-pandemic recovery will be a multi-year effort; and* on June 10, the company announced a recall of 2,600 employees. As such, the say-on-pay resolution is supported at this time.</i>
